

PRO BONO OFFER FOR COVID-19 CHARITABLE OR NONPROFIT VENTURES

May 26, 2020

Our firm is proud to offer the following *pro bono* legal services.

1. If you have adopted, or will be adopting, a new mark for a charitable or nonprofit venture in the United States to aid others in connection with the COVID-19 coronavirus pandemic, and
2. If you are an existing client or we accept you as a new client:

We will file and prosecute to possible registration one application to register the mark for those services in the U.S. Patent and Trademark Office, and this will include a preliminary search of USPTO records for an assessment of registrability and any Office Action response we can handle as a non-substantive formality. This will be **without charge for professional fees**. The client will pay only the USPTO official government fees.

It is in our sole discretion whether the venture qualifies as nonprofit charitable, whether a new client is accepted, and whether a new mark is appropriate for registration. More details will be provided before we start the work.

To take advantage of this offer, please contact CLLAGOOD@CLL.COM or your regular CLL attorney.
