

Trademarks, Copyrights, Patents, Trade Secrets & More

Founded in 1957, we are recognized worldwide as a leading firm for trademarks, copyrights, patents, trade secrets and more. Our IP Group has unusual depth of experienced attorneys knowledgeable in U.S. and international practice. We provide top-notch service, manage over 30,000 trademark records and over 12,000 patent records and represent clients of all sizes, including many of the best-known companies, in a variety of industries.

For years we have filed more trademark oppositions than most other firms before the U.S. Trademark Trial and Appeal Board (TTAB), and we have achieved victory in many important cases in federal and state courts. Our trademark attorneys also practice before the United States International Trade Commission (ITC), Uniform Domain-Name Dispute-Resolution Policy (UDRP) service providers and alternative dispute forums.

On the patent side, members of our patent group have scientific and technical backgrounds in electronics, electrical and mechanical engineering; computer hardware and software; organic chemistry and materials science. We concentrate on complex computer-related inventions; electrical, mechanical and electro-mechanical devices; Internet and AI-related systems and software in general; biotechnology; business method patents; and design patents. Our patent group has successfully enforced patents and defended clients in patent infringement suits in various Federal district courts as well as appeals before the Court of Appeals for the Federal Circuit.

What They Say. Our firm is listed year-after-year as a top trademark firm by *World Trademark Review 1000*, *Legal 500*, *Chambers*, *Managing Intellectual Property*, *IP Stars*, and *Best Law Firms*. Many of our individual attorneys are mentioned in these publications and are listed by *Best Lawyers*.
